

# #BeInformedNYC

Informing Candidates and Voters about Poverty and Homelessness in NYC

You only think about breathing  
when you can't...

**1 in 3**

homeless children  
in New York City  
suffer from asthma.

That's  
more  
than **2x** the rate of  
children  
nationwide.

## Even with an asthma diagnosis:

Of homeless kids do not have the  
appropriate asthma control medication.

Of homeless kids go to the emergency  
room at least once in a year.

**Kids with asthma need continuous care, but when  
you move your doctor doesn't move with you.**
