

City Council District 15

Ritchie Torres
Belmont / Fordham

Rank by Largest Number of Family Shelter Units

3

out of 9 districts in the Bronx

4

out of 51 districts in New York City

Rank by Highest Percent of Homeless Students

2

out of 9 districts in the Bronx

2

out of 51 districts in New York City

Highlights

Over half of the single mothers with young children in District 15 live in poverty and 41% of households are severely rent burdened.

Amidst an already high rate of rent burden, over 3,700 units of affordable housing could be lost in the next five years.

1 out of 4 District 15 students experienced homelessness in the last five years

Neighborhood

41% of households are severely rent burdened

17% of people are unemployed

51% of people work in low-wage occupations

36% of people have less than a high school education

55% of single mothers with children under five live in poverty

Note: The number of homeless students represents the council district where students attend school; homeless students may attend schools in districts where they do not live. Students who experienced homelessness in the last five years is the ratio of currently homeless and formerly homeless students to the total number of students in the district. Formerly homeless students are defined as those who are currently housed but experienced homelessness at any point during SY 2010-11 to SY 2014-15. Chronically absent students are those who miss 20 or more school days in a school year. Late IEP is defined as received after Kindergarten. Data represent a cohort of students who entered Kindergarten in SY 2010-11 and received an IEP at some point during the next five years. Math and English proficiency rates refer to students who score a 3 or above on the New York State Education Department Math and English Language Arts tests. Dropout and graduation data represent the four-year dropout and graduation rates for students who entered high school in 2011 and experienced homelessness at any point during their high school career. Low-wage occupations are defined as those with annual median salaries at or below \$28,583, which is 150% of the Federal Poverty Level for a family of three in 2014. Households that are severely rent burdened spend 50% or more of their income on rent. Districts 8 and 34 are split between boroughs, and the numbers used in the borough rankings are for the section of the district that falls in that borough. Percentages may not add to 100% due to rounding.
